The impact of accidents on firms' reputation for social performance

Dec 2001 **Length:** 26 Pages

**Word Count:** 9783

**Text:**

...up an accident profile for each event. Based on these profiles, independent raters (management graduate students) trained and under close supervision evaluated and quantified the **accident** characteristics, using a 7-point Likert-**type** scale. These characteristics were (a) severity with respect to damage to human life, (b) severity with respect to environmental damage, (c) media attention, (d) company...

...to human life (HL) was defined as the extent of damage that humans (dead or injured in any way) suffered as a result of this **accident**. It was operationalized with the help of a 7-point Likert-**type** scale and measured according to the following guidelines: A minor oil spill with no immediate damage to human life received a score of 1. An...a firm's reputation for social performance of another stakeholder group: the financial community.

Control Variables

As control variables, financial performance, prior corporate reputation, and **type of accident** were used. Financial performance was controlled for because it has been found that financial performance is significantly correlated with corporate reputation (McGuire et al., 1990...

...given that changes in corporate reputation are being investigated, controlling for prior reputation means that one is controlling for regression toward the mean effects. Finally, **type of accident** was controlled for by including the necessary indicator variables.  
Statistical Analysis

Three multivariate regressions were used to analyze the variables presented above. Multivariate regression was...

...In addition, tests for the normality of the residuals and for potential interaction effects between the independent variables and the indicator control variables for the **type of accident** were conducted. These additional analyses found that the residuals did not deviate substantially from normality and that there were no significant interaction effects between the...
